

ATILLA HADRIAN C. CASTRODES

Systems Architect | AI & Automation Practitioner | BS Information Technology (2026)

Email: atillahadrianc@gmail.com | GitHub: mikachiq | Website: <https://castrodesdev.vercel.app>

RELEVANT WORK EXPERIENCE

Game beta tester/reviewer at RAILINGS UNIVERSITY/PIF NATION (voluntary role)

- Identified and reported bugs in pre-release games, improving user experience.
- Collaborated with teams to suggest enhancements and ensure game quality.

IT intern at Lifewood Data Technology

January 2026 - May 2026 (540 hours)

- Designed system architecture, database structures, and user flows for internal tools
- Created websites and AI agents to support internal company operations
- Crawled and compiled datasets for AI development
- Researched existing AI tools such as OpenClaws & LLMs for internal integration and workflow optimization

EDUCATION

Saint Dominic Savio International School 2015-2022

- Elementary, Junior and Senior High School

University of Cebu, Lapu-Lapu and Mandaue 2022-Present

- Bachelor of Science in Information Technology

PROJECTS

EduMatch - Capstone Project

Role: Project Manager, Technical Writer, Systems Architect, and Frontend Design (UI & UX)

Tools/Tech: TypeScript, C#, Python, React, PostgreSQL, Docker, External APIs, and Random Forest

- A machine learning-based recommendation system that suggests universities to users based on their preferences.
- Built the AI model and datasets from scratch.
- Led internal team workflows and external processes.

AIRA, an HR automation system with AI Agent integration - Internal company project

Role: Lead & Full Stack Developer, and Systems Architect

Tools/Tech: React, TypeScript, openrouter API, Supabase, and Vercel

- Built an AI agent that scans the HR email and extracts applicant data.
- Automated candidate tracking and on-demand status retrieval via a chatbot.
- Automatically sends AI interview link, updates HR calendar of upcoming interviews, and automatically sends drafted emails.

Company Website - Internship Project

Role: Full Stack Developer

Tools/Tech: React, TypeScript, Supabase, and Vercel

- Rebuilt the company website with added admin hierarchy and user functionality.
- Implemented full frontend-backend integration.

Adssistance, an automation email assistant agent - Personal Project

Role: Lead Automation Developer

Tools/Tech: n8n, openrouter API, HTML & CSS, JScript

- Developed an AI email responder that generates context-aware replies.
- User can feed the agent context to further increase generated response accuracy.

TECHNICAL SKILLS

- HTML & CSS
- Typescript
- JavaScript
- React
- Python
- Supabase
- Godot & Gscript
- APIs
- Git
- Vercel

CORE COMPETENCIES

- System Architecture & Design
- Database Schema Design
- UI/UX Design
- User Flow Mapping
- Wireframing (Figma)
- Mind Mapping (MindManager)
- System Diagramming (Lucidchart, Draw.io, Excalidraw)
- Project Management
- Data Annotation
- Team Collaboration
- SDLC
- Research

AI TOOLS/LITERACY

- Google AI Studio
- NotebookLM
- HeyGen
- RAG
- Lovable
- Prompt Engineering
- AI Code assistants
- n8n
- Gamma
- AIGC
- HIL
- LLMs
